

## WESTERN OIL MEN GIVE BIG BANQUET

Discuss Future of Oil Industry in Middle Western Field.

### MALLOY TOASTMASTER

Gov. Robertson Among Other Brilliant Speakers at Elaborate Dinner.

By W. H. FROCK  
Oil Editor

There was a great gathering of oil refiners and their friends in the rooms of the Hotel Tulsa last evening after an unusually good and interesting session much oratory and some studies indicating a very brilliant assembly.

"We have covered the situation from Texas and Louisiana to Kansas and we should profit by the things they have seen," said Mr. Robertson, "one point of the greatest prosperity is the point of manufacture, and if you wish to see the cause of manufacture take a look at West Texas. It is the point of manufacture of this very large field, the largest in the world."

Fred W. Lehmann pointed out that the year 1920 offered many problems which the refiners must solve when he spoke for the refinery owner in the cordial address of welcome made by Clarence E. Douglas of the chamber of commerce. President Lehmann promised to be higher and no higher rates would be asked by the industry, or at least not seemed at the present moment. The year ahead might be prosperous and might possibly leave a small margin of profit to the refiner, he pointed out.

This same idea was brought out by Sales Manager C. H. Hall of the Ohio Cities, who followed. He referred to the problem of the survival of the refineries and said there would be as much gasoline moved out of the state at 25 cents a gallon as at 20 cents, he said. To which Mr. Lehmann added that he hoped there would be as much moved out at 25 cents as there would be at 15 cents.

L. S. Marston who spoke for Kansas said it was going to be a question of the survival of the refineries and that there would be as much gasoline moved out of the state at 25 cents a gallon as at 20 cents, he said. To which Mr. Lehmann added that he hoped there would be as much moved out at 25 cents as there would be at 15 cents.

PETITIONS FOR DIVORCE were filed by the following plaintiffs in district and superior courts yesterday: Jessie Wilson against Joseph Wilson; Arthur Stanton against Oliver Stanton; John C. Mitchell against Laura L. Mitchell; Leona Denton against Will J. Denton; and Mildred B. King against Fred W. King.

MARSHALL LICENSES were issued to the following yesterday by the clerk of county court: Lester Dickinson, 16, and Lorene Pearce, 18; Tulsa; C. G. Cooper, 22 and Madge Eisenberg, 18, Tulsa; Fred Sawyer, 22 and Oma Shockey, 18, Tulsa; Herman T. Merritt, 22, Tulsa; and Clara R. Toliver, 22, Muskogee; John W. Denton, 33, San Francisco, Calif., and Mildred B. King, 27, Muskogee.

A Japanese inventor of a noncombustible celluloid substitute has taken out 14 United States patents upon it.

RHEUMATISM

Successful healing remedy  
for Rheumatism, Neuralgia, Sciatica, Nervousness, Headache, etc. See the details.
